The Wool Interest

(From the New York Shipping List,)

Various theories have been advanced regarding the unwonted depression of wool during the last two years prominent among which may be mentioned increased duties under the present tariff It was confidently expected by the advocates of a higher scale of duties on wool and woolens that the staples would appreciate in value and woolen fabrics would have a freer market at higher prices But the result shows that domestic wool has not ruled so low in many years as it has since the present tariff was adopted with a corresponding depression of the market for woolen goods

The Commissioner of Revenue, in his exhaustive report on wool duties, submitted to Congress last winter, remarked at the outset that the principal motive in imposing a higher duty on the foreign staple was manifestly to raise the value or price of American wool to the same extent and if it failed to do this the object of the wool grower would certainly not be attained From this starting point he proceeded to argue that the hopes of the wool grower were delusive and that if they should succeed in their endeavor to have the tariff increased, there was very little probability that it would put any money in their pockets while the injury it would inflict upon the business of the country would be very great and the loss of revenue to the Government would be considerable

Those who have given much attention to the course of the market need not be told that Mr Wells's prediction has been verified, almost to the letter Under the present tariff, the growers of domestic wool have had the field almost to themselves The leading kinds of foreign wool such as were imported in large quantities from South America and the Cape of Good Hope, have not only been excluded but considerable quantities have been re exported in bond to European markets to avoid losses And yet the domestic product is some forty per cent lower than when foreign wool was admitted at such moderate rates of duties as to admit of the consumption by our manufacturers of all that their necessities or interests required The plain inference then is, that the end for which the present high tariff was framed has been defeated, although the extreme depression of the last six or eight months is, no doubt, partly due to other agencies, some of which may be briefly pointed out

1st The production of woolen fabrics of certain styles and quantities was stimulated to undue proportions by the war

2d The excessive importation of foreign woolens in anticipation of increased duties

3d The inferior condition of the last wool crop, brought about, in a great degree, by the introduction of a degenerate breed of sheep into the flocks of the leading wool growing States

4th The exorbitant prices of the leading food staples operating against the ordinary consumption of wearing apparel

5th The onerous burden of the present revenue tax on sales of manufactured goods.

6th An inadequate supply of those qualities of foreign wool necessary for the production of certain kinds of cloths, to which the domestic staple is not adapted

7th The depression of wool in the European markets resulting partly through an increased supply of wool, turned in that direction by our high duties, thus (with cheaper labor materials and capital) enabling certain kinds of foreign fabrics to successfully compete with our own

Not only have the wool and the woolen interests been subject to unwonted depression during the past year, but the present tariff, by excluding the foreign article, has been almost barren of revenue to the Government

Prior to the enactment of the present tariff, this country required some seventy million pounds of wool more than was produced at home As it could not be expected that the American wool grower could export wool at a profit, it was manifest that his prosperity depended upon the prosperity of the woolen manufacturer, and that any measure which crippled the latter would injure the former

To enable the manufacturer to prosper, then, he should be permitted to obtain, at fair prices, such varieties and qualities of foreign wool as are deemed essential to the production of goods necessary to meet the wants of customers South America, Africa, Canada, and the countries bordering on the Mediterranean produce varieties of wool necessary to the successful production of certain kinds of woolen goods in this country, most of which cannot be grown here For many purposes the domestic varieties are of little value, unless mixed with foreign wool, and to prevent the manufacturer from going into the foreign markets to obtain the requisite kinds is manifestly to prevent his business from attaining the development which the same branch of industry enjoys in other countries We have little sympathy with the advocates of free trade or extreme high duties, believing the views of both classes to be erroneous There is a middle course which would probably meet the necessities of Government and the producing interests and as the whole revenue code will most likely be revised by the present Congress, we hope to see manufacturers and wool growers unite upon a more conservative scale of duties than that now in operation

GEN GRANT'S MILITARY POLICY —Col Badeau in his book about Gen Grant, thus tells how he came to realize the full power and purpose of the rebellion, and to adopt the policy which finally brought about the Appomattox surrender

Until the battle of Shiloh, Grant had supposed as nearly every one else did at the North, that one or two victories for the Union would induce the South to return to its allegiance, but when the rebels recovered so soon from the crushing defeat of Donelson to make the prodigious effort of Shiloh, when even the loss of Nashville and Bowling Green and Columbus, and nearly all of Kentucky and Tennessee, appeared not to lessen their energy or overcome their determination, he became certain that the contest was to be prolonged and intense, beyond anything that had yet been seen This belief developed his peculiar views of the manner in which the war should be carried on He thought then and remained firm in the conviction ever afterwards, that it was not extended territory, nor capital cities, nor fortified places, that should be the prime object of any commander's strategy for it had been proven that all these could be dispensed with by heroic and determined foes but that armies and men must become the points of attack that these should be pursued wherever they moved, regardless comparatively, of position and form that the armies must not only be defeated but destroyed and that therefore, the policy of merely outwitting or outmanœuvering an enemy, or forcing the evacuation of strongholds and the abandonment of territory, and allowing him to concentrate his real force, was unwise and every effort should be made to find and fight the rebel armies again and again and that only when those armies were either subdued or annihilated would the rebellion end Upon this idea he thereafter acted as far as he had control He did not underrate the value of places but he was always willing to sacrifice them for armies He did not depreciate the value of life but he thought that even life should be freely spent, if so the great object of the war could be attained He believed indeed that life rapidly expended in a vigorous campaign would prove an economy of life in the end

From this time therefore Grant gave up the idea of saving the resources and sparing the property of the South the South had made the war avowedly one of the people, and the people being a party must suffer until the people as well as the soldiers were conquered Henceforth he gave his subordinates orders to live upon the resources of the country without stint, whenever their necessities compelled, and he abandoned all desire to protect the institution of slavery although he himself had been a slaveholder, and had no sympathy with the merely political idea of abolition Whatever opposed the effort to maintain the unity of the country must be destroyed

"Democracy in Georgia."

The following is a report of the proceedings in the Georgia Convention, on the 23d of January

A prolonged and earnest debate took place in the convention to day, upon the question as to what shall hereafter constitute treason against the State The Conservatives and Hancock Democrats seemed determined that nothing should go into the Constitution declaring secession treason Strangely enough two or three members who have heretofore been considered reliable Union men made speeches upon the same side Several of the more prominent Republicans made but a feeble resistance and the Democrats seemed about to have the thing their own way Encouraged by this they became bolder and at last Holcombe of Milton declared that secession is a right of the people that it is no treason and the Government of the United States dares not bring Jeff Davis to trial because it knows he is no traitor and cannot be proven one

This speech roused the Republicans Dunning of Atlanta took the floor detailed the history of secession portrayed its bloody and disastrous consequences and with fervid eloquence and patriotic eloquence demanded its condemnation in the organic law

Mr Crane of Northeast Georgia, who has mostly heretofore acted with the Democrats, made a speech of great power on the same side

Mr Parrott President of the convention came to the aid of the Democrats with the sophistical argument that as State sovereignty is destroyed, there can now be no treason against the State

Mr Bedford, who lost a leg in the rebel army, replied that just such doctrine as that of Parrott's had made the war "Conventions, he said, "had always dodged this issue Hence our troubles The advocates of secession, in 1861, claimed that Georgia had a right to secede, because there was no denial of that right in the organic law Let us now deny it Let us declare it treason Had that been done in the old Constitution of Georgia her people never could have been coaxed or forced into war against their government, nor would I have been dragged into the armies of the rebellion like a dog I therefore demand it as a right that this constitution shall declare that all who attempt to again perpetrate this foul wrong against me, or against this State are traitors, and deserve a traitor's death"

This speech raised the convention to enthusiasm A test voted showed 73 in favor of the correct doctrine to 45 opposed All amendments offered by the Democrats were voted down, and the fifteenth section of the bill of rights as reported by the committee, imperfect as it was in language, was about to be adopted, when Bryant, of Augusta, offered the following as a substitute

"Treason against the State of Georgia shall consist only in levying war against the State or the United States, or adhering to their enemies, giving them aid and comfort"

"Cursed be Canaan."

The following is a complete copy of the bill concerning electors proposed in the Ohio Legislature by the Democratic majority. Lest the reader might take it for a burlesque, the Ohio papers take pains to assure us that it is the genuine article introduced in the Assembly by Penniston

Section 1 Be it enacted by the General Assembly of the State of Ohio, That the judge or judges of any election held under the authority of any of the laws of this State shall reject the vote of any person offering to vote at such election whenever it shall appear to said judge or judges that the person or persons so offering to vote has a distinct and visible admixture of African blood

Sec 2 If any person offering to vote shall be challenged as unqualified on account of an admixture of African blood, by one of the judges or by an elector, the following oath or affirmation shall be tendered to him by one of the judges of such election "You do solemnly swear or affirm that you will fully and truly answer such questions as shall be put to you touching your qualifications as an elector at this election" Thereupon the judges, or one of them, shall put to him the following questions 1st, In what State were you born? 2d, Had your reputed parents, or either of them, any visible admixture of African blood?

Sec 3 After the examination of the person challenged as provided in the preceding section, the judges of the election shall, unless the vote of such person is rejected, require him to produce before them two credible witnesses, who shall be tendered by one of such judges the following oath or affirmation "You, and each of you, do solemnly swear or affirm that you will fully and truly answer all such questions as shall be put to you touching the qualifications of —— as an elector of this election" Thereupon the judges, or one of them shall put to each of such persons the following questions 1st, Are you acquainted with ——? 2d Do you know where he was born? If yes, in what State? 3d, Were you acquainted with either of his reputed parents? If yes, did either of such parents have an admixture of African blood?

AN ACCOUNT SETTLED —The Cincinnati *West and South*, which spits upon the Pendleton platform, thus thrusts at the *Enquirer*

The *Enquirer* prints half a column to prove that everybody is reconciled to the election of Thurman to the Senate It cannot, however, create any such impression for not to mention Vallandigham himself we suppose that four fifths of the party would have selected him as their choice of the rival candidates

Let us have an uncle's talk with the *Examiner* The Cary speculation in Hamilton county keeps on bearing fruit If we had gone head foremost into the fall election, like honest men, we should have undoubtedly elected our legislative ticket Thurman would have been shelved as Governor instead of being sent to the wrong place, and Vallandigham could have been made Senator Pendleton could have gone into the National Convention as the Presidential candidate of Ohio, from a Democratic State which would have been a different foundation from greenbacks

Will the *Enquirer* answer who made a profit on Cary and the loss of the State and county ticket? The *Enquirer* sticks by him and Butler publishes their poor speeches, and Cary's friends have tea parties at the office, we infer from the access which [illegible] and his associates have to the editorial columns We are not certain whether they control the day or night editor, or both of them

Still who made profit by the election of Cary and the defeat of Vallandigham? Was the *Enquirer* realizing its share when it stood lowest on the vote for delegate at large to the National Convention for the big gun of the establishment?

Will the *Enquirer* allow us to state the account current, it opened last October with the party so as to demonstrate its capacity for political finance?

The *Enquirer* establishment is fully entitled to the credit for General Sam Cary (M C) for the Second District It is only to be charged with the following small items *pro contra* The loss of the Governor and the State officers the Hamilton county ticket of eleven legislators the Democratic member of Congress Vallandigham for Senator, and Pendleton very probably, for President

A LONG TELEGRAPHIC CIRCUIT —The Chicago *Tribune* of December 16th says

An unbroken circuit was made and messages sent without repeating between Houston Texas and Salt Lake City via New York The Houston operator sent "Houston sends greeting to Salt Lake We sit with coats off and windows open" Salt Lake promptly replied "Weather beautiful here but have a snow storm in Montana Brigham Young has just married another heifer" Houston replied "Don't touch the brass in your key or you'll get yellow fever" After this Helena Montana 500 miles north of Salt Lake was put on and conversed a few moments The Circuit worked over the following route Houston New Orleans Mobile Knoxville, Washington New York Chicago and Salt Lake Had the San Francisco operator not been out of the office he would have been drawn into the circuit [illegible] extended [illegible] thousand miles [illegible] performance [illegible] Houston [illegible] thousand eight hundred miles from New York, which was two thousand [illegible] in Salt Lake [illegible] was very favorable and he [illegible]

A man set his son to studying law, because he said he was such a tricky little rascal, and he wanted to humor his chief talent

In the Rocky Mountains.

Philip Ritz of Walla Walla, who has been traveling for some time through Idaho and Montana, sends the following to the *State* [illegible] Salt Lake

In coming down we came near a very remarkable salt spring on Lander's cut off, in a beautiful little valley at the base of Bear Mountain, in Oneida county Idaho Mr B W White is the principal owner It furnishes water enough to make ten tons of salt every twenty four hours. The water is ninety five per cent. salt, and makes salt equal to the finest Liverpool. Mr. White tells me he can furnish salt at the works for half a cent per pound Not far from this spring is a grove of sugar maple from which parties have made considerable sugar, the only sugar maple I know of west of the Rocky Mountains The formation of this country is very singular indeed I was told by different parties of a remarkable well to the west of the lake, on one of the roads leading to Nevada It is nearly circular, about 60 feet in diameter and has been sounded to a great [illegible] without finding bottom, the water is [illegible] and stands at a certain height without running over. It is said that a teamster came along one hot day with four yoke of oxen and a wagon loaded with flour, when the oxen seeing the water [illegible] it to drink, it being a little descending, the [illegible] most oxen and wagon crowded all into the well, and almost before the driver knew what he was doing, the whole outfit sank and was never seen afterwards. This is as I have it from other parties

Lost River, on the road to Boise City, is another curiosity A large stream of water gushes out from the base of a precipice, about 40 feet wide and from one to two feet deep, clear as crystal, and full of trout and empties into Snake river near Salmon Falls The whole volume of Snake river pours over those falls a distance of 200 feet and forms a most beautiful picture, of which they have some nice copies here. The artist told me that our fellow townsman, Dr. [illegible], was the first person that ever visited the falls and made an estimate of their height, &c. Lost River comes from some subterranean passage from the north, yet for some thirty or forty miles to the north there is not the sign of a spring. I [illegible] a very nice photograph of it which I will [illegible] home I attended the theater one night, more from curiosity to see Brigham and his family than to see the play I will write you from [illegible] City before taking the cars for Omaha It does look somewhat like an adventure to start out in such a storm to travel day and night for more than 500 miles over the Rocky Mountains

VICTOR HUGO AND THE EMPEROR NAPOLEON. The following correspondence has passed [illegible] the subject of the proscription of M. Victor Hugo's "Ruy Blas," at Paris, by order of the Government

To M VICTOR HUGO, Guernsey.

Monsieur—I have just been officially informed that the representation of 'Ruy Blas' is [illegible] ed, in presence of this intervention of [illegible] authority, our treaty becomes null and void, and I have the pain of informing you to this effect Accept, &c, the Director of the Odeon Theatre.

Upon which M Hugo writes to the [illegible]

525 MILES
OF THE
UNION PACIFIC RAILROAD
Running West [illegible]
ACROSS THE CONTINENT,
ARE NOW COMPLETED.

THIS BRINGS THE LINE TO THE EASTERN BASE of the Rocky Mountains, and it is [illegible] that the track will be laid thirty miles further, to [illegible], the highest point on the road, by [illegible]. The grade from the foot of the mountains to the [illegible] is but eighty feet to the mile, while that of many [illegible] roads is over one hundred. Work in the rock [illegible] on the western slope will continue through the winter, and there is now no reason to doubt that the [illegible] line to the Pacific will be open for [illegible] in 1870.

The means provided for the [illegible] of this Great National Work are ample. The United States [illegible] Six Per Cent. Bonds at the rate of from $16,000 to $48,000 per mile for which it takes a second lien as security, and receives payment to a large if not to the full [illegible] of its claim in services. These [illegible] as each [illegible] mile section is finished, and after it has been [illegible] by the United States Commissioners and [illegible] to be in all respects a first-class road, thoroughly [illegible] with depots, repair-shops stations, and all the [illegible] rolling stock and other equipments.

The United States also makes a donation of 12,800 [illegible] of land to the mile, which will be a source of large revenue to the Company Much of this land in the Platte Valley is among the most fertile in the world, and other large portions are covered with heavy pine [illegible] and abound in coal of the best quality

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government and no more Hon E. D Morgan and Hon Oakes Ames are Trustees for the Bondholders, and deliver the bonds to the Company only as the work progresses so that they always represent an actual and productive value

The authorized capital of the Company is One Hundred Million Dollars, of which over five million have been paid in upon the work already done

EARNINGS OF THE COMPANY.

At present the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and, as there will be no competition it can always be done at profitable rates

It will be noticed that the Union Pacific Railroad is, in fact, a *Government Work* built under the supervision of Government officers and to a large extent with Government money and that its bonds are issued under Government direction It is believed that no similar security is so carefully guarded and certainly no other is based upon a larger or more valuable property As the Company's

FIRST MORTGAGE BONDS
are offered for the present at 90 CENTS ON THE DOLLAR, IN U S CURRENCY, they are the cheapest security in the market, being more than 15 per cent lower than U S Stocks. They pay
SIX PER CENT. IN GOLD,
or over NINE PER CENT. upon the investment Subscriptions will be received in Portland by
FIRST NATIONAL BANK
OF PORTLAND OREGON,
and in New York at the Company's Office, No 20 Nassau street and by
CONTINENTAL NATIONAL BANK, No 7 Nassau st,

and by the Company's advertised Agents throughout the United States Remittances should be made in drafts or other funds par in New York and the bonds will be sent free of charge by return express

"Friends of the Workingman."

Of late we have often had occasion to notice the hypocritical cant of the Democratic party about "workingmen" and "the poor." An examination of the proceedings of the meetings which the party is holding in different portions of the State shows that the same whining, disgusting tone is played on every occasion. The ease with which that party forgets its past history and becomes the advocate of measures diametrically opposite to its former practice and professions, is one of its peculiar and remarkable characteristics. It first got possession of the Government by a bitter and unscrupulous war upon the Federal principles of Washington and Adams, but in the [illegible] of Monroe and Jackson it adopted the leading Federal doctrines which it had so vehemently opposed when it was struggling for power. Its whole history is full of examples of this propensity to change. In nothing has it exhibited this unblushing inconsistency to a greater degree than in its claim to be the workingman's friend. A few years ago it had nothing but insult and contempt for the laboring population. [illegible] devoted to the propagation of slavery and endeavoring to bring about a system of things under which labor should be wholly subordinate to capital and a moneyed aristocracy have command of the body of the laborer as well as his services, it declared by its champions that a population, "bleached or unbleached," who labored [illegible] was "a dangerous element in the body politic," and denounced workingmen as "moon-struck [illegible], small fisted farmers, greasy mechanics and mudsills of society." Not ten years ago [illegible] of the Democratic party, who are now ranting and mouthing in their pretended zeal for the workingman, upheld and defended a system which was built on the idea that labor was degrading; which, in the South, wholly deprived the laborer of his wages and converted him into a chattel, and which would have done the same thing in the North had such a result been possible;—hardly seven years ago the country was plunged into a terrible war in order that the leaders of the Democratic party might continue to fatten on the labor of a race of men without paying for it. Moreover, that party advocates a policy which would bring the labor of foreign countries at sixpence a day directly into competition with the labor of our own people, and reduce the working classes of America to a condition of practical serfdom. There can be no more shameless exhibition of a demagogue spirit than when a party with such a record as this claims to be the especial friend of the laboring classes.

The Lewiston *Journal* of the 8th inst., says that James O'Neill, Indian Agent at Lapwai, by the mail on the 28th ult., received authority and instructions from Headquarters, to take to Washington a delegation of the Nez Perces, to consist of Head Chief Lawyer, and not to exceed three other Chiefs and an Interpreter, as early in the spring as the weather and facilities for traveling will permit. It is recommended that Lawyer select the three other Chiefs and that they should be men of standing and influence in their tribe; also, that two of them be taken from that portion of the tribe opposed to the treaty of June 9th, 1863, in order that both parties may be heard in regard to the carrying out of the treaty stipulations of said treaty and the general management of the affairs of the tribe.

We unintentionally omitted to notice the lecture recently delivered by C. B. McDonald, editor of the *Unionist*, before the Grant Club of Albany, a printed copy of which reached us by mail a few days since. The subject of the lecture is the *The New Nation*. As a literary performance it bears many of the distinguishing features of Mr. McDonald's well known style of composition. It abounds in eloquent passages and we hear it has been repeated to several audiences with much applause.

The permanent organization was completed by the election of D. C. Underwood as President; Benj. Butler as Vice President; B. Herman as Secretary; J. S. Gilbert as Corresponding Secretary, and W. A. Haynes Treasurer.

On motion, Hon. Jas. F. Gazley was invited to address the Club on February 22d.

On motion, the Club resolved to encourage the circulation of the Journals mentioned as a means best calculated to subserve the cause of Freedom and Union and the spread of intelligence and public morals.

Washington News

The War Department has awarded the contract for carrying government freight west and south from the terminus of the Omaha and [illegible] Railroad to Forts Smith and Caldwell, and to Denver.

The House Judiciary Committee has agreed to report a bill regarding a Law Department of the Government. It provides that law officers shall be attached to each bureau and be directly under the control of the Attorney General and not work independently as at present. The law forbids the employment of additional counsel except by the Attorney General.

WASHINGTON, Feb. 18.—The Reconstruction Committee held a meeting to-day. The first proposition presented for consideration was to remove disabilities. Butler claiming to be representative by election from Tennessee, the question was on suspending the test oath that his case might be considered and be admitted to a seat in the House.

Brooks moved to include John Young Brown of Kentucky. With this scope the resolution could not be considered of course. Brown was not a rebel, but the House had declared that he gave countenance and support to the rebellion. He was therefore ineligible to a seat.

Butler and Brown thus being excluded from the House on similar grounds, Brooks amendment was rejected by a party vote.

During the discussion Young Brown it was said, did not ask to be pardoned. Brooks replied that was not true, but the committee decided to remove the disabilities in the case of Governor Orr, ex-Governor Holden and others who had not made personal application for that purpose.

Stevens said the committee had acted too hastily on the subject. He desired further time to look into it.

No additional action was taken on the bill yesterday introduced by Bingham for the admission of Alabama. It was considered too short a time and Stevens thought action ought to be delayed until they could get all the facts. He was rather dissatisfied with it however, believing a general bill applicable to all the Southern States should be passed, instead of acting upon one State.

Stevens submitted a bill for the division of Texas into three States, and providing that the convention about assembling in that State shall fix the boundaries of each State, and further, that each shall have the same constitution. He thought there ought to be four or five States made out of the Texas Territory, but he would be content with three. Stevens will report this bill to the House so that it may be printed and be referred back to the committee for revision if necessary.

In the House the Committee on Foreign Affairs agreed to report substantially a new bill in regard to the rights of American citizens abroad.

The State Department has issued a circular, recommending that all citizens of the United States, native or naturalized, before visiting Great Britain shall procure passports while the *habeas corpus* remains suspended in the latter country.

BY ATLANTIC CABLE

LONDON, Feb. 16.—Earl Mayo made an explanation with regard to the arrest of George Francis Train. He said the police who had arrested him had received general instructions to watch for persons arriving from the United States and to stop all suspicious parties. Copies of Train's speeches on Ireland found in his trunk caused his arrest. He was finally released on giving a pledge that he would make no speeches or do no act in sympathy with the Fenians.

There was a violent debate yesterday on the question of the distribution of the Government advertising. The opposition claimed that they were entitled to a share of the national municipal advertisements. They demanded this not as a matter of necessity but on principle. LETTER FROM ASTORIA

ASTORIA, Feb. [illegible]

EDITOR OREGONIAN:

The mouth of the river sends greeting to the Emporium of Oregon and congratulates it and at the same time itself on the breaking up of a hard winter and the resumption of communication with the world at large. And it has happened not too soon for us. Our merchants were out of [illegible] groceries, [illegible] of whisky [illegible] portion of the public comprised of the weather bound passengers for the upper country. Dances, raffles, prayer meeting, lodge meetings, coasting parties, etc., have furnished the recreation and matter in the absence of mail matter. Now that the river is open and we have read ourselves up to date on the matter of news, business has taken a new impetus and we are looking forward to an active season. Extensive repairs and additions are to be made to Fort Stevens. A Custom House is to be erected at Astoria, ma hurry, and we hear a fish factory are expected from the east. A new paper is talked of to make its appearance early in the season. With numerous smaller enterprises to help along [illegible] morals of our citizens [illegible] appear the most active [illegible] our religious or secular societies. They are waging a destructive warfare against our seven saloons but they (the saloons) seem to [illegible] as many lives as a cat and are determined to live. It has been observed that of the evenings of lodge meeting the billiard and bowling saloons present a quiet appearance very unusual at other times, the inference being that the festive G. T's find in these games a balm for their deprivation of the ardent, thus contributing indirectly to the support of the institutions the order is warring against. The sages of the society seeing a change of tactics was necessary to success have hit upon an entirely original plan, and one which we would recommend to the consideration of all similar societies. *Opposition* is now their watchword and the weapon with which they propose to squelch this "hydra headed monster." A billiard table has already been purchased and preparations are being made to start a first class G. T. saloon. Root beer, ginger pop, sarsaparilla, etc., are to be substituted for the vile drinks of the saloons. We predict for the enterprise certain success, and that before the year shall have waned our rumsellers will have joined the G. T's, or moved to Chinook.

The liberal minded free thinking "Friends of Progress" (Spiritualists) of whom there are many in this section, held a public meeting and organized themselves into a society last week. They are zealous workers and I believe not a whit behind our other religious societies in securing converts from the outside world.

We can chronicle no late marriages, but the receipts from old investments in this line are quite remarkable. No deaths have occurred since the Chinook tragedy—of which you have already made mention—except that of an Indian who was found dead in the street. Coroner's verdict: "too muchee whisky," with doubts if it was not the water in it.

If this prove acceptable you may expect a line from here

OCCASIONALLY.

The Union Convention of Tennessee declares the following political principles:

1. The unalterable and unconditional support of the Union.
2. The administration of the Government by those who saved it, and not by those who sought its destruction.
3. No steps backward in the cause of freedom.
4. General Grant for President in 1868.
5. Congress to be supported in its struggles with an apostate President.
6. Free education for every child in the State.
7. Encouragement to immigration.
8. The maintenance of the rights of manhood irrespective of color or race.

Last night at the theatre, a gentleman felt the pressure of two feminine feet upon his patent leathers. At first the sensation was delightful. It made inexpressibly delicious thrills pass through his body, but these sensations wore away and the pressure began to feel the least bit uncomfortable. "Madam," he gently suggested, "you are standing on my feet." "Your feet, sir?" "Yes, madam." "Goodness! I beg your pardon sir, I thought I was standing on a block of wood; they are quite large sir!" "Quite; but you covered 'em madam."

SAVE YOUR MONEY and wait for the arrival of the LARGEST, FINEST, PRETTIEST and CHEAPEST STOCK of CLOTHING, GENTS FURNISHING GOODS, DRY GOODS, etc., ever imported for the Oregon trade, which KOHN & FISHEL will receive soon. Those that will not wait would profit by buying from the stock KOHN & FISHEL have on hand now, which they are selling AT COST to make room for their spring stock.

Buchtel's Photograph Gallery is the *only* establishment in Oregon that is thoroughly prepared to do *all the different styles* of work in the art. Photographs from card to life size. *The new cabinet cards, &c. &c.* Small pictures enlarged (retouched in India ink—painted in water-colors or oil by Mrs. S. J. Rumsey. Pictures that are fading can be reproduced in this way. All negatives taken in this gallery will be carefully preserved and additional copies had. I have now on hand a very large collection of negatives the names of which are recorded alphabetically in a book for that purpose that can be seen in the reception room.

OWING TO THE VARIOUS STATEMENTS circulated by some of the Trade, that the Goods now on exhibition in my Show Case are imported, I respectfully announce to the public that all and every pair were MANUFACTURED ON MY PREMISES, and by public patronage I am prepared to produce every style of BOOTS and SHOES, thus proving by the various styles the excellence of my house in the dispatch of orders. One inducement is the lack of *Double Profits* also offered the public shall avail themselves of. The want of a First Class Manufactory has long been felt in this city, and to attain this I have combined such talent as will enable me to offer the public superior goods to those heretofore forwarded by the various agencies of our Portland houses.

SHIP BUILDING ON THE PACIFIC COAST.—Last September, the Board of Underwriters of San Francisco held a meeting and appointed a committee consisting of C. T. H[illegible], President of the California Insurance Company and Secretary of the Board and of the Chamber of Commerce, Joseph Ring[ot], Surveyor to the Board of Underwriters and C. L. Taylor, to report on the following two questions:

1st. Whether it be possible to inaugurate a large ship building business at Puget Sound, and other lumber ports to the northward of San Francisco, with a view to the construction of vessels of size and strength sufficient ultimately to control the foreign as well as the coasting trade of San Francisco?

2d. Whether any safe method can be devised whereby the Insurance Companies can advance a portion of the capital, on mortgage or otherwise, necessary to facilitate the inauguration of ship-building and to what extent it may be advisable to make such advances?

On the 10th December the Committee made a lengthy report, which has been published and from which we glean the following facts and statements: There are now in the coasting trade, or owned in San Francisco, 21 ships, valued at $365,000; 75 barks, valued at $[illegible]000; 39 brigs, valued at $1[illegible]000. Total tonnage, [illegible] tons. The average age of all the vessels is 18 years.

The report after discussing at some length the policy of Pacific Coast investments in ship building, the comparative cost per ton in New York and Pacific Coast ports goes on to say:

"Having now exhausted our present means of information as to the advantages of the Pacific coast for the business of ship building as compared with Eastern ports in the United States, we respectfully submit—*That sailing vessels of any size and description can be built at Puget Sound, at Coos Bay, on the Columbia River, and at several other lumber ports north of San Francisco of as good quality as the vessels built of Maine Materials and for less money in gold, than at New York or Boston, provided, the business be undertaken on a large scale by experienced and prudent mechanics, backed up by a large capital.* We believe that a corporation should be formed with a capital subscribed of $1,000,000, and power to increase it to $5,000,000; that at least $400,000 of this amount should be paid in within twelve months. The company should then make a selection of suitable locations for yards at two or three points on Puget Sound or at Coos Bay. They should import, by the cargo to their yards direct from the cheapest supply ports in the world, all such articles of naval stores as cannot be more cheaply supplied from our own industry. They should erect permanent buildings at their yards for the storage of supplies, for mill lofts, and boarding houses for their men. They should contract abroad for hundreds of mechanics, axe men and other laborers, if they found themselves unable to command a sufficiency of labor at home. All their operations should be conducted on the wholesale principle. Their vessels should be constructed on the best models, be thoroughly fastened, heavily timbered and supplied with all modern improvements so as to give them a good character from the start. The company having a large capital would be able to keep several vessels constantly on the stocks, and if not salable here on completion at a fair price, they would be able to freight them from port to port until a market were found."

FROM ST. HELENS.—*A friend at St. Helens* sends us the following items, under date of Saturday, 22d:

"Since the ice left the river below and the Willamette Slough above this place, an air of business has been put on by our little town which, though ephemeral perhaps is exceedingly pleasant to the eye. The *Ajax* lies at anchor at the mouth of the Slough, where she has been unloading and receiving freight into and from the O. S. N. Co.'s steamers. It is to be hoped that the *Ajax* will receive her passengers some time to-day and pass out before the ice breaks in the Columbia above. It is getting very rotten and is expected to break every hour. Where the steamer is now lying she is entirely out of danger from drifting ice. It seems apparent sometimes in the wistful look of the sober denizens of this hopeful community that they would rejoice with exceeding great joy if henceforth and forever all sea going vessels would be obliged to do as the *Ajax* has this time done. It may be wicked to indulge such a wish, but do, I pray you, allow us this poor crumb of comfort, as it does not in anywise impoverish your stirring and thriving city. When Portland becomes the terminus of two or three lines of railroad this may become a flourishing manufacturing town. The close proximity of an abundance of iron and coal to this place must in time be of incalculable advantage towards developing a solid and permanent growth; any [illegible] is worse than useless.

The large saw-mill of Messrs. Ritchey & Co. will soon begin to turn out lumber by the million. It has not been running for seven weeks, on account of the freezing [illegible]. An immense saw-mill is like an elephant on the hands of its owner when the saws are still. It is to be hoped, however, by everybody looking forward to the time when the lumber trade of the Columbia river will be greatly augmented, that those enterprising gentlemen [illegible] investing in the lumbering business here will succeed in building up a paying and flourishing business. [illegible] would be of great advantage to this part of the State. It would stimulate engagements in the same [illegible] all along the river, and thus by producing an [illegible] amount of lumber to send abroad, there would be no difficulty in procuring transportation, which at present appears to be a most serious drawback to the [illegible] of this mill. The more mills the merrier as long as there is market for the lumber. It is short sighted in owners of mill property to manifest a jealous rivalry towards others engaged in the same business on the river. Men who exhibit such dog-in-the-manger [illegible] ought to fail. Competition in lumbering on the Columbia river will prove to be the life of trade.

This is the day for the meeting of the Copperhead Club in St. Helens. Any of the faithful living in distant parts of the State happening this way should make it convenient to be here on Saturdays, as it is one of the best [illegible] to renew the *spiritual* strength this side of Dixie. Brick Pomeroy's *La Crosse Democrat* is the leading exponent of the party here. It is refreshing to see the [illegible] refugees of Prices' army, waiting here for something to turn up, and with what gusto they devour the [illegible] rottenness of the greatest Democratic organ in America. More anon."

PASSENGERS FOR SAN FRANCISCO.—The steamer *Ajax*, [illegible], Commander, sailed for San Francisco, Saturday morning with the following passengers: Hon. M. P. Deady, [illegible]smith, T. D. Mallinger, H. Hyman, Mrs. C. Levy, Miss L. Fr[illegible]rich, I. Rosenfeld, D. Hildburg, Charles [illegible], Moses Seller, Isaac Carnian, S. M. Lyon, A. Haine, H. Everding, J. Sunderland, Henry Taubman, wife and four children, Mrs. M. McKay, Mrs. A. Taubman, Miss E. Taubman, [illegible] Taubman, James Taubman, John Taubman, Rev. D. Delorme, Mr. Rosenbinger, A. Strauss, J. W. Gilbert, H. Ludwig, John Ward, B. Brenner, G. Gurat, O. P. T[illegible], E. G. Mooney, wife and children, C. H. Meussdorffer and wife, Charles Hall, Charles Drew, R. Clark, H. N[illegible], T. B. Rice, H. Foster, C. S. Fechheimer, W. M. Barclay, T. Wolfe, H. W. Hyman, Amos Hirsch, Major S. Fr[illegible], S. Blumauer, Mr. Johnson, John Nesler, George Clark, Gen. L. Rousseau, Miss B. Kaufman, L. Fish[illegible]her, E. J. Delfart, John McCraken, E. Russell, O. H. W[illegible], W. S. Wade, J. Berry, R. W. Armstrong, C. H. Hopkins, A. B. Hall, L. H. Lewis, O. A. Frankenau, A. Frankenau, A. Beck, J. Koshland, G. N. Hensell, D. Swain, Miss LaBerty, Miss B. F. Tingley, Miss O. Barclay, A. B. Hallock, H. A. Seigfeld, Wells, Fargo & Co's Messenger, and forty-five in the steerage. Total number of passengers one hundred and forty-three.

A SOCIAL EVENING AMONG THE ODD FELLOWS.—Last [illegible] evening the Odd Fellows of this city, after the regular meeting of Hassalo Lodge, called in a body upon Mr. Cris Taylor to present their congratulations and acknowledgments of his valuable services in the late Grand Lodge of the United States, as the Representative of the order in the jurisdiction of Oregon and Washington Territory. After the exchange of courtesies usual to such occasions, the guests were invited by Mr. Taylor to a repast at the American Exchange, where for two or three hours, the company enjoyed a very pleasant and social time—brief speeches, toasts and sentiments being the order. The compliment paid to the Grand Representative by this call and the sentiments uttered at the repast was certainly a flattering one and was handsomely acknowledged by Mr. Taylor. The occasion was one long to be remembered by those who participated in the ceremonies. We believe that the brethren in this jurisdiction very generally have a very high appreciation of his services as their Grand Representative. The estimation in which he is held by the acquaintances formed in the G. and Lodge, was expressed through the elegant present received by him the other day—a magnificent regalia—mentioned in our local column.

OREGON CITY ITEMS.—The Union Convention for Clackamas county has been called for Saturday, March 7th. It will elect Delegates to the State Convention and nominate candidates for the Legislature and county officers. The *Enterprise* of Saturday says: The next, and probably the last lecture of the Odd Fellow's course, will be delivered by Rev. Dr. Wythe of Salem, on or about the 10th of March. The subject of Dr. Wythe's lecture is upon "Labor." A Lodge of the order of the Eastern Star, (in adoptive Masonry), was instituted in this city on Friday evening of last week, by Mr. J. E. Hurford. The following are the officers: Mrs. C. McCune, President; Mrs. Mary Barlow, Secretary; Mrs. J. R. Ralston, Treasurer; Mrs. Wm. Barlow, Inside Sentinel; Mrs. J. E. Hurford, Marshal; J. E. Hurford, Instructor. Another meeting was held last evening, for the purpose of completing the organization. We are pleased at being able to state that the machinery for the new paper mill, of Messrs. H. L. Pittock, W. W. Buck and associates arrived by the last steamer, and the mill near this city will be at once prepared to receive it.

FROM THE DALLES.—Mr. T. B. Cann, Express Messenger, arrived at half past two P. M. yesterday. He reports the trail and roads thawed out and in horrible condition for travel. The ice in the Columbia, above the Dalles, is nearly all gone, and below, is very thin and full of air holes and large open places. Mr. Cann thinks that a steamer could go through it without any trouble by Tuesday. There is no local news of importance from the Dalles. We are indebted to Mr. Cann for files of Idaho papers.

LEAVE OF ABSENCE.—Messrs. Hallock, McCracken and Fechheimer, of the City Council have each leave of absence for five to six weeks and all of them left by the st[eamer] *Ajax* for San Francisco. Mr. Ripley has been [illegible] a long time, and thus there is only a bare quorum of [illegible] left at home. The chances are that very little city legislation will be accomplished in the next few weeks.

FREIGHT FOR SAN FRANCISCO.—The *Ajax* took the following freights for San Francisco: 19,514 qr sks flour, 225 sks wheat, 165 bbls beef, 16 cases tallow, 2 cases dried beef, 19 cases bacon, 3 bbls butter, 11 hf bbls butter, 7 cases butter, 25 gunnies potatoes, 722 gunnies onions, 21 rolls leather, 4 cases leather, 120 hf bbls lard, 9 bundles pelts, 4 bbls salmon, 14 hf bbls salmon, 77 packages merchandise.

NEW PUBLICATIONS.—We are indebted to Barrett for copies of the *Tribune W[illegible]* and [illegible] *Almanac*, and for a variety of the [illegible] publications. He has a very large supply of everything of the kind.

FLAGS FLYING.—Quite a number of flags were displayed at top-mast on Saturday, in honor of Washington's birthday.

TREASURE SHIPMENT.—The following amounts of treasure were shipped per steamship *Ajax* on Saturday:

Wells, Fargo & Co	$51,000
Ladd & Tilton	38,000
Estimated in private hands	500,000
Total	$589,000

FIRE AT VANCOUVER.—A telegram received from Vancouver Sunday night says: A fire broke out this morning about two o'clock in an old and unoccupied building which had been used lately as a storehouse for hay. About eighty tons of hay were destroyed—loss about eight hundred dollars. The fire is supposed to be the work of an incendiary.

[illegible].—The following produce was received at this city on Saturday: Per *Senator* from Oregon City, 2,300 qr sks flour, [illegible] bags wheat, [illegible] packages [illegible], boxes eggs. Per *Hert*[illegible] qr sks flour, 700 bags wheat, 189 sks [illegible]. Per *Al*[illegible] from Oregon City, 1,000 qr sks flour, 14 [illegible].

ACCIDENT TO A STEAMER.—A telegram was received at Oregon City on Sunday giving information of an accident to the steamer *Enterprise*, the breaking out of her cylinder head. The *Enterprise* was to be patched so to work her down. The accident occurred on the upper river near Corvallis.

GRANT CLUB AT EAST PORTLAND.—We learn that the [illegible] of East Portland will have a meeting this evening for the purpose of organizing a Grant Club. Messrs. A. C. Gibbs and [illegible] will address the meeting.

FREIGHT FOR VICTORIA.—The steamship *Fideliter*, Erskine Commander, sailed Saturday for Victoria with a few passengers and 1,200 [illegible] flour and wheat.

RECEIVED BY THE STEAMER AJAX.—A large assortment of those Knobby business suits which we are selling at fabulously low prices. W. CUSNIER & Co., 103 Front street.

Capital removal seems to be growing into an epidemic. The telegraph informs us that if there had been a full house the resolution for the removal of the Capital of the United States to some point in the Mississippi Valley would have been carried a couple of days ago! The project is not by any means a new one. A great many strong arguments can be urged in its favor. For instance, the capital of so vast a nation as this ought to be located at some central point equally accessible from all parts of the Union. The present Capital, besides, is too near the sea-coast, and therefore, more liable to capture in case of a foreign war than a seat of government established far in the interior. But what bothers us is the vast amount of money that has already been expended in the erection of public buildings at Washington. Are we rich enough to throw all these millions away? The nation is rather cramped in means to draw it only mildly, just now. In its efforts to make both ends meet it is crushing out much of the life and energy of the people. And then what use could be made of the magnificent Capitol and the Treasury Building, acknowledged to be one of the most elegant and chaste public buildings in the world? Who would rent or buy them, and what could be done when possession was obtained? [Alta.

DR. C. W. COOL,

DENTIST.

THOSE WHO DESIRE FIRST CLASS DENTAL SERVICES might do well to give him a call. He is making a NEW AND IMPROVED VULCANITE PLATE. The nature of his improvement consists in lining the entire concave surface with fine gold, it makes the plate twice as strong and one third times thinner than the common vulcanite plate. It also prevents the acids of the mouth from roughing the plate and from turning it black, which is a common occurrence. One half of the common vulcanite plates turn black after being in use a short time, particularly where tobacco is used for smoking. His new style of plate admits of a very fine finish on the concave or palate surface. His office is the only place where such work can be had. The improvement is his own invention, for which he has received, December 3d, 1867, a patent from the United States Patent Office. He has been making this style of work for the last two and a half years, and has specimens of the work which can be seen at his office. This work has given satisfaction in every case.

PERRY DAVIS' VEGETABLE PAIN KILLER.

THE UNIVERSAL REMEDY FOR INTERNAL AND EXTERNAL COMPLAINTS

At this period there are but few of the human race unacquainted with the merits of the Pain Killer; but while some extol it as a liniment they know but little of its power in easing pain when taken internally while others use it internally with great success, but are equally ignorant of its healing virtues when applied externally. We therefore wish to say to all that it is equally successful whether used internally or externally, and it stands alone, unrivalled by all the great catalogue of Family Medicines, and its sale is universal and immense. The demand for it from India and other foreign countries is equal to the demand at home, and it has become known in these far off places by its merits.

CASH ASSETS	$23,000,000 00
ANNUAL INCOME OVER	5,000,000 00
CASH DIVIDEND (Feb. 1, 1867)	2,124,000 75

THE MUTUAL DOES A CASH BUSINESS ONLY AND HAS NO NOTES!

What a Note Company says:

"We recommend the CASH plan as the best mode of Insurance. *None will deny this after a few years'* EXPERIENCE *of the different plans.*"—The Charter Oak Life Insurance Co. (a Note Company.)

EXPERIENCE has taught business men that CREDITS must be paid for.

IN CASH COMPANIES.—The first payment is the largest; every successive year reduces the premium or increases the policy, at the option of the insured. Past records of the Mutual prove that in 15 years their *payments cease*, but DIVIDENDS continue for life.

IN NOTE COMPANIES.—The first payment is the smallest—*Interest on Notes* swallow Dividends and increase the future payments.

OBSERVE.—Notes must be paid for by higher rates and increased insurance.

DIVIDENDS.—The Mutual declares Dividends the first and every successive year from the date of a policy holder's insurance. N. B.—The public should ascertain from other Insurance Companies if Dividends are declared annually from the start—or annually 4 YEARS AFTER Insurance.

RATES in The Mutual are Lower than in any other Company doing business on the Pacific Coast, *and are considerably lower than in any Note Company*.

EVERY ADVANTAGE is offered by The Mutual—(excepting a risk)—that other Insurance Companies can offer.

THE MUTUAL

IS THE OLDEST AND LARGEST LIFE INSURANCE COMPANY.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

BEWARE OF COUNTERFEITS.

HOSTETTER'S

CELEBRATED STOMACH BITTERS!

A Pure and Powerful Tonic,

Corrective and Alterative, of wonderful efficacy in Diseases of the

STOMACH, LIVER AND BOWELS.

PROTECTIVE PROPERTIES.

Prevents Fever and Ague and Billious Remittent Fevers; Fortifies the System against Miasma and the evil effects of unwholesome water, invigorates the organs of digestion and the bowels, Steadies the Nerves and tends to Prolong Life.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or PRODUCED BY SPECIAL CAUSES.

NOTHING THAT IS NOT WHOLESOME, GENIAL, and restorative in its nature, enters into the composition of HOSTETTER'S STOMACH BITTERS. This popular preparation contains no mineral of any kind; no deadly botanical element; no fiery excitant; but is a combination of the extracts of rare balsamic herbs and plants, with the purest and mildest of all diffusive stimulants.

The weak stomach is rapidly invigorated, and the appetite restored by this Tonic, and hence it works wonders in cases of Dyspepsia, and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is conclusive, and from both sexes.

As a Genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional Weakness, Premature Decay, and Debility and Decrepitude arising from old age, it exercises the electric influence. In the convalescent stages of all diseases it operates as a delightful invigorant. When the powers of nature are relaxed, it operates to re-enforce and re-establish them.

Last, but not least, it is the only safe stimulant, being manufactured from sound and innocuous materials, and entirely free from the acrid elements present more or less in all the ordinary tonics and stomachics of the day.

Journalism

MR GREELEY'S [illegible] OF THE WAY A [illegible] SHOULD BE CONDUCTED

Mr Greeley in the last number of his Recollections concludes a history of the Tribune as follows: The Tribune as it first appeared was but the germ of what I sought to make it. No journal [illegible] a dry summary of the most important or the most interesting occurrences of the day [illegible] not a newspaper in the higher sense of the term. We need to know not only what is done but what is purposed and said by those who sway the destinies of states and realms and to this end the prompt perusal of the manifestoes of monarchs, presidents, ministers legislators etc is indispensable. No man is even tolerably informed in our day who does not regularly keep the run of events and opinion through the daily perusal of at least one good journal and the ready cavil that no one can read all that a great modern journal contains, only proves the ignorance or thoughtlessness of the caviler. No one person is expected to take such an interest in the rise and fall of stocks the markets of cotton cattle grain and goods, and the proceedings of Congress Legislatures and Courts the politics of Europe and the ever shifting phases of Spanish American anarchy, etc, etc as would incite him to a daily perusal of the entire contents of a metropolitan city journal of the first mark. The idea is rather to embody in a single sheet the information daily required by all those who aim to keep "posted" on all important occurrences, so that the lawyer the merchant the banker, the forwarder the economist, the author the politician etc, etc may find here whatever he needs to see and be spared the trouble of looking elsewhere. A copy of a great morning journal contains more matter than an average 12mo volume, and its production costs far more while it is sold for a fortieth or a fiftieth part of the volume's price. There is no other miracle of cheapness in comparison with its cost which at all approaches it. The Electric Telegraph has precluded the multiplication of journals in the great cities, by enormously increasing the cost of publishing each of them. The Tribune, for example, now pays more than $100 000 per annum for intellectual labor (reporting included) in and about its office, and $100 000 more for correspondence and telegraphing—in other words for collecting and transmitting news. And, while its income has been largely increased from year to year its expenses have inevitably been swelled even more rapidly; so that, at the close of 1866 in which its receipts had been over $900 000 its expenses had been very nearly equal in amount, leaving but a fair rent for the premises it owned and occupied. And yet its stockholders were satisfied that they had done a good business [illegible] in the patronage and value of the establishment amounted to a fair interest on their investment, and might well be accepted in lieu of a dividend. In the good time coming, with cheaper paper and less exorbitant charges for "cable dispatches" from the Old World, they will doubtless reap where they have now faithfully sown. Yet they realize and accept the fact that a journal radically hostile to gainful sin [illegible]. Ay the cunning and powerful few live sumptuously without labor and often amass wealth, by pandering to lawless sensuality and lawless vice, can never hope to enrich its publishers so rapidly not so vastly as though it had a soft side for the Liquor Traffic, and for all kindred allurements to carnal appetite and sensual indulgence.

Maximilian's Departure and Return

[From the New York Tribune]

He departed in holiday trim, with a prospering breeze with silken sails with gold in plenty, and promises of furtherance and help as plenty as gold—with salutes of cannon, and shouts of people and a soft susurrus of courtly farewells, and a rain of roses, and flutter of perfumed handkerchiefs, and the clapping of innumerable kinds. Whoever wishes to know how he looked when he left his barber on that eventful morning had only to step at the window of Fowler & Wells shop on Broadway, where, amid a nightmare of skulls and plaster casts of wits and witless madmen poets and murderers, ghastly and grim, all huddled together as in a Day of Judgment he may see, perched on the bandbox it came in from Paris, the waxen effigy of the gallant Prince! Fair flaxen hair in a cloud on either side of his head, parted in the middle girlish wise, wide blue eyes, as in a picture open and confiding, rosy cheeks, speaking of health and youth, full red lips, too large and full and the long whiskers that add the last touch of [illegible] to a face that nowhere speaks of man. Such was poor Max, soft-hearted, soft-headed, small-footed, slim, but with a larger mind than the effeminate face and body betokened, when he left the gate of the cruel and cowardly tyrant, who bade him farewell with a face all smiles and a heart all stone.

To-day he comes again and as the Novara sails into port, what a sight is here! How the face, livid and yellow like old parchment with dark circles about his hollow eyes contrasts with the tawdry splendor of the military coat, in which his shrunken, wasted cadaver is encased, its tissues all injected with antiseptics, and the dismal cavern, where once in the golden days, the warm heart beat and throbbed, and the lungs digested the sweet air, now stuffed with mummy. How the hair, still parted in the middle and dressed with the old pomades refuses to lie quiet but shrinks with sensative horror from the hole by which were drawn out the poor brains which played their part so ill and which is now stopped—good God!—with a plug of wood for lack of the bit of bone the thieving Mexican surgeon stole for a relic of his illustrious subject! How pitiful it is to see the end of the Imperial nose, against which the blundering razor slipped as they shaved the corpse now mended clumsily with a bit of wax! Could they not cut his mustache straight, but the bungling scissors must jab those pouting lips, once cherry red, now blue and thin and shrinking from the glittering teeth! Down with the coffin lid.

The Democratic National Platform

[From the Chicago Tribune Jan 25]

The Democrats in the Georgia Reconstruction, Convention declared by their votes and speeches on Thursday last

1st That the States have a right to secede

2d That there is no such crime as treason against the United States

3d Jefferson Davis is not a traitor

4th That Georgia has a legal right to go out of the Union

The necessary inference from these premises is,

1st That the war was unconstitutional

2d That the rebel armies were composed of honorable men defending their sacred and inalienable rights

3d That the Union armies were composed of murderers

4th That the national debt was illegally incurred

5th That slavery is not lawfully abolished

These doctrines will constitute the basis of the Democratic national platform. They are the doctrines which Geo H Pendleton has uniformly and consistently maintained. They are the principles for which the unreconstructed whites of the South are everywhere contending. To aid them in securing these rights the Northern Democracy oppose the reconstruction policy of Congress. A more comprehensive statement of the issues of the campaign could not easily be made.

It only remains to add that a [illegible] who had had one of his [illegible] and who believes that the war is ended [illegible] in the convention [illegible] Democratic party and [illegible] that [illegible] shall be punished with death. The treason clause was carried by a strict party vote—73 ayes to 40 noes.

GOVERNOR HAIGHT'S MESSAGE. The St Louis Democrat of January [illegible] up the message of Governor Haight of California [illegible] with that of the [illegible] Governor of Missouri. It says:

It [illegible] with the approach of Winter and as if by a law of nature [illegible] material messages descend in showers [illegible] with the beginning of new year. Governor Haight [illegible] Legislature of California [illegible] construction [illegible] and the [illegible] material interests of the great and [illegible] Empire State of the [illegible] of Missouri. Five lines of it relate to [illegible] politics. The whole message is given to the affairs the business the resources and the practical interests of the State. The [illegible] trust is suggestive. Each message well represents the spirit of the party with which it sympathizes. The Democratic message, like the Democratic party west, its whole force [illegible] against the [illegible] of the Union and [illegible] for partisan purposes [illegible] impartial suffrage and [illegible] for the return of rebels to power, while the Republican message, like the Republican party, [illegible] that they will [illegible] work of construction [illegible] leaves more partisanship to the Union and the stump and wastes no time in battling with [illegible] realizes that the duty of those to whom the people have intrusted power is to protect their rights promote their interests and advance their prosperity by wise government and [illegible] in a review of the condition and progress of the State and a discussion of measures designed to enhance its prosperity.

"We see," said Swift, in one of his most sarcastic moods, "what God thinks of riches by the people he gives them to."

"They Cure." What Cures! **AYER'S CHERRY PECTORAL** for a Cough. **AYER'S PILLS** for a purgative and **AYER'S SARSAPARILLA** for the complaints that require an alterative medicine.

PACIFIC
TURBINE WATER WHEEL!

Fig. 1,

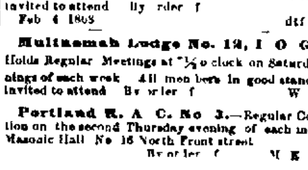

Fig 2,

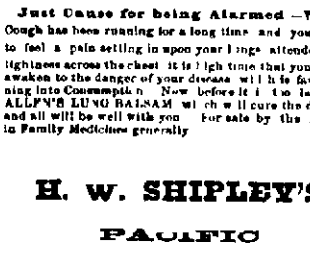

THIS NEW WHEEL, OF WHICH THE ABOVE cut is an illustration has

FOUR SETS OF BUCKETS,

USES THREE-FOURTHS OF THE WATER TWICE,

Giving at least Twenty per cent more Power than any other Wheel ever invented

Figure 1 is an axial section of case with wheel inclosed and illustrates the arrangements for applying the water through a series of openings in the periphery of the case direct upon the wheel by fixed guides. [illegible] gates extend inward toward the [illegible] which are between their inner ends and when open fit closely against the guides, thus offering no obstruction to the inward flow of water. The gates are opened and closed by a hand and ratchet wheel upon which operates a rack segment on a ring which extends entirely around the top of the case partially revolving the ring from different points. The revolving of the ring opens or closes the gates by means of connecting rods.

Figure 2 a perspective view shows the three sets of periphery and the radial set of buckets. The peculiar construction is such that it uses three-fourths of the water twice—something never before achieved in any water wheel. The buckets [illegible] the water to the [illegible] of the wheel. After the water exerts all the power that can be obtained on three sets of well arranged periphery buckets it passes [illegible] is again used upon the radial set giving an [illegible] power and producing an increase [illegible] of motion truly wonderful!

Aware that the new principles of this invention may [illegible] the inventor [illegible] seeing the wheel work in the most certain way of removing skepticism. He will warrant every wheel to perform all that he claims for it. By its use many of the now [illegible] water powers may be again [illegible] the means of adding to the employment and wealth of the country.

MR H W SHIPLEY Sir. In reply to your inquiry as to how I like your Pacific Turbine Wheel I have to say that I have used one over [illegible] Leffel wheels—10 13 and 15 inch diameters. When I substituted your 15 inch wheel for the 13 inch Leffel wheel though [illegible] it worked the machinery like a [illegible] water per minute more than the 13 inch Leffel. At your request I subsequently took your wheel out that it might be finished, and then I put in a 15 inch Leffel. But it gave no better power than yours while it used 52 cubic feet more water per minute. After some months I replaced your wheel and am still using it with the most satisfactory results. I have subjected it to some severe tests. For instance while running the circular saw in a log which squared 15 inches I added the planer with a [illegible] [illegible]

DR. J. C. YOUNG,

Medical and Surgical INSTITUTE.

*** CONSULTATION [illegible] CASES [illegible]
*** CURES GUARANTEED, OR NO PAY REQUIRED
*** IN ALL CASES WHERE CORRESPONDENCE IS REQUIRED THE UTMOST SECRESY MAINTAINED

The above rules, established by Dr. J. C. Young in 1850, and which have done so much to secure the reputation of this Institute, are still adhered to, affording those in need of medical aid, the certainty of cure and the utmost confidence.

There is nothing of so great importance to the sick as to know where to find a physician whose skill and humanity give assurance of proper and delicate treatment. The Doctor would respectfully call the attention of those of both sexes who are suffering or in trouble to the invariable success that has marked the career of the Institute in the seventeen years of its existence.

It is unnecessary in this connection to enumerate all the complaints treated at the Institute, but the Doctor feels it his duty to call especial attention to that terrible scourge,

SEMINAL WEAKNESS,

That is sapping with its insidiousness the very life of its victims, in the treatment and cure of which the Institute has earned so enviable a reputation.

READ! READ!

I am aware that by dwelling upon so unlovely a subject as the decay [illegible] the vital principle of life the ignorant may [illegible] the [illegible] to point out to those who [illegible] and decay the true cause of their affliction, [illegible] great an incentive to be forced into abeyance. [illegible] the terrible disease of Seminal Weakness [illegible] one but the practical specialist who devotes his time to treatment can tell but its presence can be detected by the most inexperienced by noting the following [illegible] Weakness of the back and limbs [illegible] feelings loss of muscular power nervousness, hot cold feet or hands accompanied by hot head [illegible] of consumption short breath flushings of the face [illegible] confusion of the mind loss of [illegible] nightly emissions colorless slight discharge upon least excitement trembling palpitation of the heart [illegible] variable temper etc.

YOUNG MAN if you experience any of the symptoms enumerated above pause to consider [illegible] the golden moment in which you may [illegible] health and happiness. You may feel strong now, but if you have ever practiced the vice of self-abuse even but [illegible] you have the seeds of weakness in your system and their undermining influence will, sooner or later dash the fair edifice of your strength to [illegible] and leaving you a helpless object being. It is not a disease that declares itself at once. Therein lies its greatest danger; for while the patient is being treated for an affection of the Heart Lungs Brain or Digestive [illegible] breaks into a general debility that soon adds [illegible] to the list of the victims of the terrible disorder, Seminal Weakness.

See in the bent form and languishing steps, the victim of the fascinating vice. Mark the course of destructive complaint in the hollow cheek and dull eye.

Drowsiness is one of the premonitory symptoms [illegible] first it is easily shaken off but it grows eventually [illegible] great distraction [illegible] regular business [illegible] and then [illegible] apprehensive and restless nights [illegible] days of depression.

It is the nature of the complaint to [illegible] changes that leave the poor victim but little hope of recovery. In a single instant it may wither your hopes and blast your honest aspirations.

Marriage is sought by a natural impulse as a [illegible] relief. This is an error of the first magnitude. The system unprepared for the exigencies of the [illegible] suddenly fails and he finds himself in a deplorable [illegible] from which there is but the slightest hope of [illegible]. Or if the marriage should result in offspring, they are [illegible] decrepit and degenerate. This is [illegible] both sexes whether married or single, and [illegible]

Do not delay if you feel any of the symptoms of [illegible] or if any [illegible] have been such as [illegible] them but by instant application secure to yourself the only hope of health and happiness. The Doctor [illegible] cures, when [illegible] always guaranteed and full and proper vigor [illegible] stored.

The afflicted are assured of every confidence.

PERSONS AFFLICTED WITH VENERAL.

During the seventeen years since the establishment of the Institute the number of cases of Venereal [illegible] been treated [illegible] a record unsurpassed by any [illegible] in the world and the success that has invariably marked the course of treatment

Without Mercury or other Deleterious Drugs,

Shows conclusively the use of them to be not called for but actually dangerous for it is a [illegible] established medical principle that those poisons [illegible] by entering the blood ruin the constitution and life.

The Doctor effects a cure in recent cases in a few [illegible] difficulty in curing those of long [illegible] without submitting the patient to such treatment as will draw upon him the slightest suspicion or oblige him to neglect his business whether in-doors or without. [illegible] need not be changed. Cures always guaranteed [illegible] no pay required.

IMPORTANT TO FEMALES.

When a female is in trouble or afflicted with disease, and requires medical or surgical assistance [illegible]
[illegible]
[illegible] Doctor and the most skillful and and faithful [illegible]

TO CORRESPONDENTS.—Persons either male or female [illegible] the Doctor because they cannot spare the time, nor [illegible] the expense of a visit to the city. To such be [illegible] but a plain statement of the symptoms and [illegible] bearing upon the complaint will enable him to [illegible] for them so that they can be cured at home. [illegible] any false delicacy about writing no matter what the [illegible] of the complaint as the communication will be seen by no one except the Doctor and will be treated with [illegible] confidence and will be returned or destroyed [illegible]
